Shipping Methods - Instructions

Adding and editing shipping methods

AGENDA

- Prerequisite Video
  - Shipping Methods - Overview
- General Shipping Method Options (by WSP)
- Setting Up Shipping Methods

GENERAL SHIPPING METHOD OPTIONS

- **Do Not Show Prices**
  - A: No Methods
  - B: Methods w/ No Prices
- **Show Prices**
  - C: Methods w/ Internal Rates
  - D1: Methods w/ Internal and UPS
  - D2: Methods w/ Internal and FedEx Rates
  - E: Methods w/ Internal, UPS, and FedEx Rates
- **Notes**
  - The difference in the above options is the logic available for calculation shipping prices.
  - WSP has a series of optional modules that can help you accomplish more complex shipping calculations / rules.
  - In all cases above you control
    - Which methods show up
    - The method's name / label that that the customer sees
   - The ship via code is passed to the ERP

SETTING UP SHIPPING METHODS

* How It Works
  + Set Up Shipping Countries in Web Driver
  + Set Up Methods in Web Driver
  + Customer Checks Out in Cart
  + Shipping Logic
    * Determines Which Method Apply
    * Calculates Prices for Each
    * Shows List of Choices (with Prices) to Customer
* Web Driver Links
  + Order Manager > Shipping Countries > Manage
  + Order Manager > Shipping Methods > Add
  + Order Manager > Shipping Methods > Manage
* Add-Edit & Manage Shipping Methods
